

140 Virtual Courses Open to All UNIC Students

A multidisciplinary course catalogue of 140 virtual courses taught in English has been opened for all UNIC students.

Courses are offered in nearly all disciplines, covering topics from genetics, technology management, to political history, business to Asian literature, computer forensics.

All students attending one of the UNIC universities are eligible to participate in the virtual UNIC courses. Find the complete course catalogue at this link:

Outgoing virtual mobility

Students must confirm with their faculty if the studies completed abroad can be included in their degree.

Students follow the registration instructions given by the host university.

Create opportunities for students & staff: apply for additional funding via (BIPs)

Blended Intensive Programmes (BIPs) are short, intensive and joint blended mobility courses for students or academic staff. A BIP is a short-term, physical mobility experience abroad (5-30 days) for learners (students or staff) with a virtual component

What are the objectives of BIPs?

- Develop & implement innovative teaching & learning.
- Add value to existing courses or trainings.
- Stimulate transnational & transdisciplinary courses for students.

BIPs implementation requirements

- Minimum 3 HEIs from 3 programme countries
- Minimum 15 participants (excluding teaching staff involved in the programme)
- No maximum number of participants
- Minimum 3 ECTS for students

Erasmus+
Enriching lives, opening minds.
